

Our Philosophy...

Nurse Massage Therapy is grounded in nursing theory and implemented within the context of the nursing process. It possesses a specialized body of knowledge and therefore represents a distinct specialty in professional nursing practice. Nurse Massage Therapists provide professional services in various practice settings and receive fair reimbursement for their services.

Nurse Massage Therapy provides a holistic approach to health care, which is needed to balance the trend toward impersonal, technological-oriented health care. Using a variety of touch therapies, the Nurse Massage Therapist acts as a catalyst to facilitate clients' ability to heal themselves.

NANMT members are committed to integrating massage and bodywork into various settings of contemporary nursing practice and health care. We work cooperatively with other health care professionals and with other nursing and massage/bodywork organizations.

NANMT members maintain a high level of integrity and accountability consistent with the NANMT Code of Ethics and Bylaws, and adhere to the laws and legal scope of practice set forth by the regulatory nursing agency where they practice, as well as the Standards of Practice for the Nurse Massage Therapist.

We Know The Power Of Touch

About NANMT...

The National Association of Nurse Massage Therapists is a member-driven nursing organization founded for the purpose of promoting the practice, education, research, and regulatory interests of its members. It is the official forum and organization for professional Nurse Massage Therapists.

DEFINITION: A Nurse Massage Therapist is a licensed nurse who has completed at least 500 hours of post-graduate education and training in massage therapy and bodywork. As such, Nurse Massage Therapists retain a specialized body of knowledge and skill that encompasses an analytical and intuitive blend of nursing and therapeutic massage/bodywork.

Since 1992 NANMT has been recognized as the official organization representing the specialty practice of Nurse Massage Therapy. As such, the Association supports the premise that the specialty services provided by Nurse Massage Therapists should be recognized by all State Boards of Nursing as being within the scope of practice of professional nursing. Therefore, the Association supports regulatory initiatives which promote the recognition and integration of Nurse Massage Therapy into the mainstream of health care delivery.

Membership Application...

If you are making payment using a check please continue. If paying by PayPal, please apply on our website: www.NANMT.org.
